TRANSPARENCY

8 & 9
NOVEMBER 2017

The Next Bangladesh Denim Expo will be dedicated to transparency. Transparency in denim sourcing, manufacturing, design & development processes.

Today every customer wants to know, where the steak he is eating comes from, the fish he is buying comes from, the toy his children are playing with comes from...

SO IT IS FOR DENIM.

And even more for denim fabrics and manufacturing...
Are you ready?

Take part in a different, more earnest way of addressing the most important sustainability questions...

Today the denim world seizes the advantages of showing transparency in fabric making, garment manufacturing and finishing.

A GREAT OPPORTUNITY TO BE TRANSPARENT
